ABOUT ME

As an interior design graduate, my mission is to revive dull spaces; transform them into inspiring environments by harmonizing practicality and aesthetics tailored to meet my clients' specific requirements. I am dedicated to remain well-informed about the latest design trends and cutting-edge technology. I consider each project as an opportunity to seamlessly fuse my creative vision with intelligent, actionable solutions; an influential impression that elegantly blends beauty and functionality.

EXPERIENCE

2019-2021 Frigo Adam

ASSISTANT ACCOUNTANT

- Preparing Invoices & Payments
- Managing Expenses
- Data Entry

2011-2017 ETCCO (Electro-Mechanical Trading & Contracting Co.)

AutoCAD 2D

2008 - 2010 Notre Dame University (NDU)
International Business Management

LANGUAGE

Native: Armenian
Excellent: Arabic & English

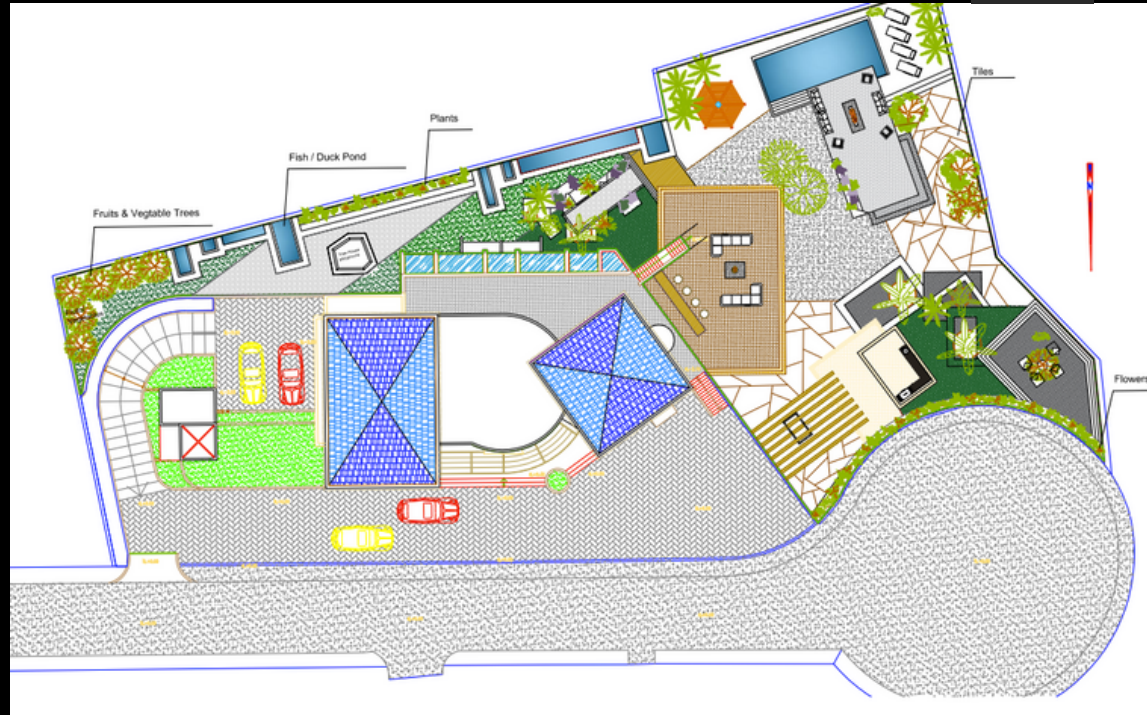

EDUCATIONAL PROJECTS

The Residential Garden represents the essence of “Modular Pixels”. A garden where nature meets programming, creating a pixel-perfect outdoor retreat for the modern coder.

THE LEBANESE HOUSE

The Plan

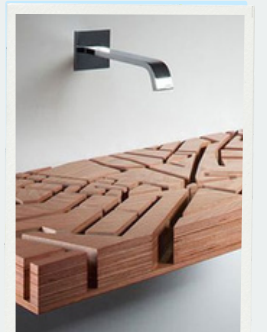

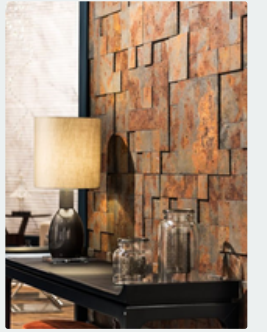

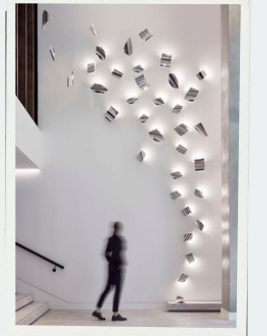

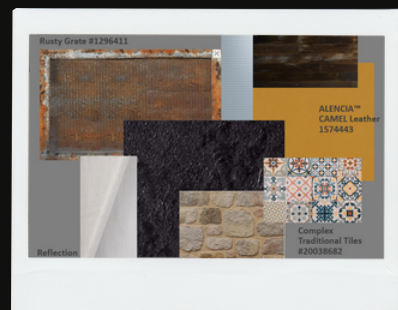

"Dive into the nostalgia with Reminisce, a design sparked by cherished memories. We're weaving together the old and new, turning overlapping memories into a blueprint that merges the past with the present. It's all about rebuilding and creating fresh moments while keeping the charm of the original. Expect a blend of modern flair seamlessly integrated with timeless elements, where each piece tells a story of its own."

The Mood board

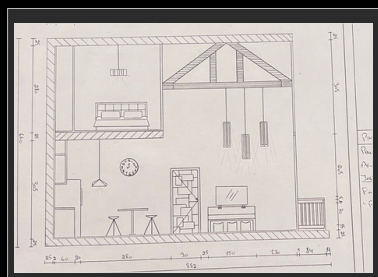

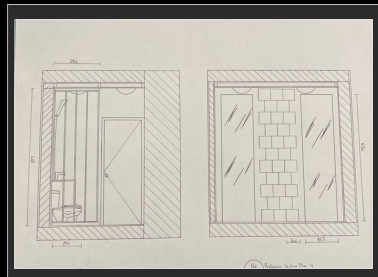

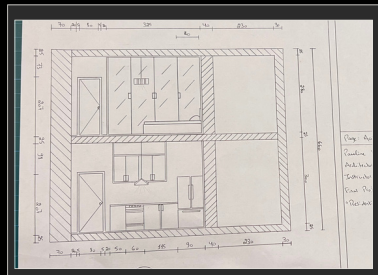

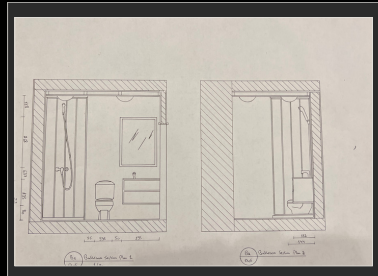

THE ORTHOPHONIC CLINIC

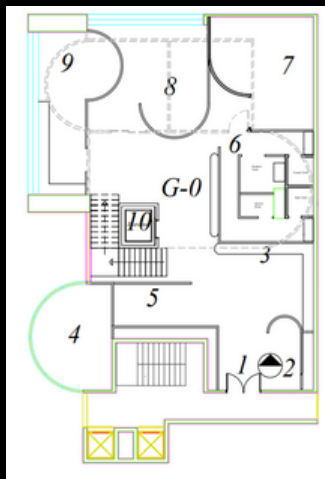

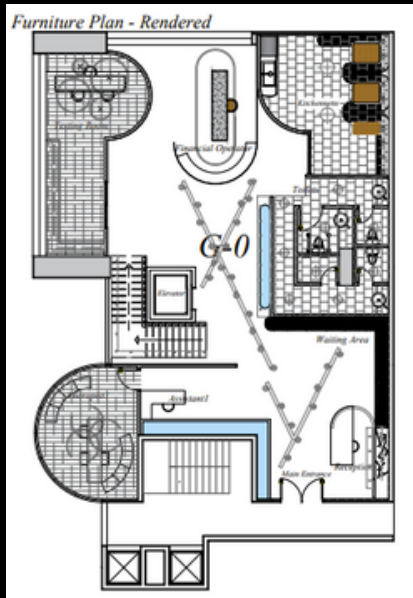

Step into the world of Articulation, a design concept inspired by the clarity and confidence found in pronouncing words distinctly. The essence lies in precision—think clean cuts, carefully crafted letter shapes, and the use of clear, transparent materials. This concept is a symphony of meticulous details, where every element articulates its role in creating a space that speaks volumes in both form and function.
